ABOUT ME

As a Computer Science undergrad specializing in AI & Machine Learning, I focus on bridging the gap between complex algorithms and impactful user applications. My technical background spans full-stack development, intelligent API routing, and LLM-powered services using Python and Java. Beyond my own code, I am passionate about driving campus tech culture forward as the President of the Qwiklabs Developer Club, where I spearhead hackathons and technical workshops. I am continuously sharpening my DSA skills to engineer scalable, real-world solutions.
